

3rd Steering-Group-Meeting in Klaipeda 19-20.6.2017 Let's do It!

Monday 19th 15:30 – 19 at Garzdai Minjo Progymnazija:

Individual consultations for SE + PL-partners

concerning work on reporting in SL2014 for 1st half year 2017

- a) Expenses for trainings and exchanges are WP3 (work-package 3)
- b) Expenses for steering-group-meetings are WP1
- c) Expenses concerning young people's transportation, accommodation & catering are BL3 (BudgetLine 3) External Expertise.

Tuesday 20.6 at Klaipeda Sendvario Progymnazija, 9-13:

1) Evaluation of May-exchanges:

- a) Important with staff-meetings and maybe even 2 per day: a formal one + non-formal in the evening.
- b) Reflection-time was sometimes also used to give tasks for the coming day as for example "talk to 10 people during the next day"
Reflection-time helps students to get over their shyness-barrier.
- c) No phones during the meals and in workshops
- d) Animals at "Jaunimo Sodyba" are not treated bad, but saved from death! Important to tell this to groups that are going to stay there.
- e) Good to bring 2 projects together to watch eachother's performance, as in PL.
- f) Warzenko was an OK place for our projects, but a printer was needed.
- g) Important that all groups are there from the beginning.

2) Planning of September-exchanges 22/23-28/29.9:

- a) We will basically work with project-leader-teams consisting of director and producer in order to secure one local person for this.
Nykoebing: Patryk (PL) & Lydia (DK)
Stubbekoebing: Nicoline (DK)
Reda: Iza (PL) & Stina (SE)
Warzenko: Peder (DK) &
Jaunimo Sodyba : Renata (LT) & Darek (PL)
Strykis (Klaipeda-2): Christian (DK) & Jurate (LT)
- b) Workshops are also open for group-leaders/teachers
- c) Workshop as many hours as possible. They are the inclusive and motivating part of the project.
- d) Important with planned evenings "Evening Fun" for example with games.
- e) Group-leaders will have the task as PR-officers and for example together with their students contact media before, during and after the camp.

- f) Important to read “Emergency-Plan for bus-travelling”
 - g) The paper “about being project-leader” will be developed into a booklet.
- 3) Local work on Stop Climate Changes was discussed together with 4 & 5:
 - 4) Final book with recommendations on Stop Climate Changes-schoolwork
 - a) It was decided to have the final steering-group-meeting in Reda in March 2018 and here have the launch of our book with recommendations for “Stop Climate Change” work in schools.
 - b) Garzdai is having the budget for editing and printing the book and it was discussed:
 - i) if the book should be like a manual with sections in different languages
 - ii) or we shall make 4 different books (in DE, LT, PL & EN). Pictures, and so lay-out, will be the same.
 - iii) SBP has strict rules concerning layout for publications done with SB-support:
<https://southbaltic.eu/communication-guidelines>
 - iv) Steering-Group-Meeting elected a working group for our Stop Climate Change-book: Renata (Garzdai, LT), Iza (Reda, PL), Birgit (Schwaan, DE) & Christian (Nyk, DK).
 - v) Garzdai has made agreement with Daniela Stoian about lay-out and with a printing-company, which is also doing editing of the delivered text.
 - 5) Newsletter on local Stop Climate Change work was initiated in order also to give this work a cross-border dimension, as this is the overall topic of our project.
If B.O. only receive input from one country there will not be a newsletter. This demands material from several different countries.
 - 6) Eventual
 - a) Training 3 will take place in Klaipeda 31.10-2.11 from lunch to lunch. Work will be at Klaipeda Sendvario Progymnazija and accommodation at Memel Hotel (rooms are pre-booked).
 - b) Training 3 was originally meant to be for all those, who have participated in the previous trainings, but we expect like 4 from each partner = 20-30 persons in total.
 - c) Each participant for training3 must bring a laptop for own work on future EFA-applications. The neglect of the Nordplus Junior application from Christian and Sophieschool tells us, that it is important that new schools are applying. They will not support the same school with a somehow similar project.
 - d) We will implement Steering-Group-Meeting as a lunch-meeting on 1st November in order to discuss especially plans for the book with Stop Climate Changes recommendations. This meeting will financially be a part of Training 3, and the last money in budgets for steering-group-meetings will be saved for the meeting in Reda in March 2018.
 - e) For 2018 we have, by now, got approved 3 Nordplus Junior-exchanges from the application made by Nicoline & Stubbekoebing School. We are waiting for answer concerning “Camp Kalmar” & “Exporting Exchanges for All”, which is also applying for money for a TV-production about Exchanges for All.

Tuesday 20.6 at Klaipeda Sendvario Progymnazija, 14-18:

Individual consultations for LT-partners concerning work on reporting in SL2014 for 1st half year 2017
